25X1

Between 0800 and 1200 on 16 June 1955, 63 canvas-covered MiG-15s were parked at Deutsch Wagram airfield. There was a 3/10 overcast, good visibility and no wind. No air activity was conducted. Between 1015 and 1020, the sound of a running jet engine was heard from the airfield but no aircraft took off. Several Soviet soldiers who were apparently engaged in shooting pheasants were seen in the woods northeast of the field. Eight AA guns were emplaced at the installation.

Comment. It is believed that Deutsch Wagram airfield is occupied by two Soviet fighter regiments. An increase in the number of MiG-15s approximately up to the authorized strength has also been observed in the Soviet Zone of Germany.
